**Objective**

The student will match initial phonemes in words.

**Materials**

- Sound Train engine and caboose (Activity Master PA.027.AM1)
- Sound Train cars (Activity Master PA.027.AM2)
- Construction paper
- Initial sound objects or picture cards (Activity Master PA.027.AM3a - PA.027.AM3b)
- Non-target initial sound objects or picture cards (Activity Master PA.027.AM4)

**Activity**

Students sort objects by target initial sound on the sound train.

1. Place the engine, cars, and caboose in a line on a flat surface. Place the platform and objects at the center.
2. Taking turns, students select an object, name the object, and say the initial sound (e.g., “tiger, /t/”). Determine if initial sound matches target sound (i.e., /t/).
3. If it matches, place object on a train car. If it does not match, place on the platform.
4. Continue until all objects are sorted.
5. Peer evaluation

**Extensions and Adaptations**

- Include objects with digraphs as initial sounds.
- Use final or medial target and non-target sound picture cards (Activity Master PLSC-M.1 - PLSC-M.13 or PLSC-F.1 - PLSC-F.16).
