Objective
The student will use adjectives to describe.

Materials
- Classroom objects
  Choose eight familiar classroom objects and label (e.g., eraser, chalk, block, crayon, cube, small book, scissors, ball, and watch).
- Two bags
  Place four objects in each bag.
  Label bags: “Student One” and “Student Two”
- Student sheet (Activity Master V.007.SS)
- Pencils

Activity
Students use descriptive word clues to identify objects.
1. Place the bags of objects at the center. Provide each student with a student sheet.
2. Working in pairs, student one selects one of the objects in the “Student One” bag, and uses descriptive words to describe it to student two (e.g., “It is a rectangle and is black and soft”).
3. Using the clues, student two attempts to name the object.
4. If the object is named, student two removes it from the bag and writes the name of the object and the adjectives describing it on student sheet. If not named, the object remains in the bag.
5. Reverse roles and continue until all objects are identified and recorded.
6. Teacher evaluation

Extensions and Adaptations
- Use other objects.
- Make a mobile by drawing the object and stringing the descriptive words below it.
