

Inequality Expressions

Discussion Questions

These sample discussion questions were submitted by students. They can be used as part of a class discussion, as an essay topic, or as a student project idea.

- When in life would it be more helpful to have a range of answers given by an inequality instead of an exact answer from a linear equation? – *submitted by Helena Abbott*
- Oftentimes, two different parts of the data set are answers to an inequality. How would we join multiple data ranges in interval notation? – *submitted by Jeffrey Wang*
- Have you ever heard of the expression, "Two heads are better than one?" Try to write this into a mathematical inequality. – *submitted by Antonio Lopez*
