

Section 1: Integers and Rational Numbers

Basic Operations Goals and Objectives

At the end of this section student should be able to,

- ❑ Graph and compare integers.
- ❑ Classify and order rational numbers.
- ❑ Find opposites of numbers.
- ❑ Find absolute values.
- ❑ Compare fractions to determine which is bigger
- ❑ Add and subtract using a number line.
- ❑ Add and subtract rational numbers.
- ❑ Identify and apply properties of addition and subtraction.
- ❑ Solve real-world problems using addition and subtraction of fractions.
- ❑ Evaluate change using a variable expression.
