

The Stone Age and Early Cultures

Goals & Objectives

At the end of this unit, students will be able to:

- Describe the relationship between homonids and early humans, and understand what *homo sapiens* means.
- Discuss daily life during the Stone Age and understand the meaning of “Paleolithic”
- Describe the lives of hunter-gatherer societies
- Explain how global climate change, including the Ice Age, affected human migration
- Explain how humans created new tools and other innovations to adapt to new environments
- Describe the Neolithic Era, and how humans first discovered agriculture
