

6-1.5 Use appropriate safety procedures when conducting investigations.

Safety procedures to use when conducting science investigations must be:

- Always wear appropriate safety equipment such as goggles or an apron when conducting an investigation.

- Be careful with sharp objects and glass. Only the teacher should clean up broken glass.

- Do not put anything in mouth unless instructed by the teacher.

- Follow all directions for completing the science investigation.

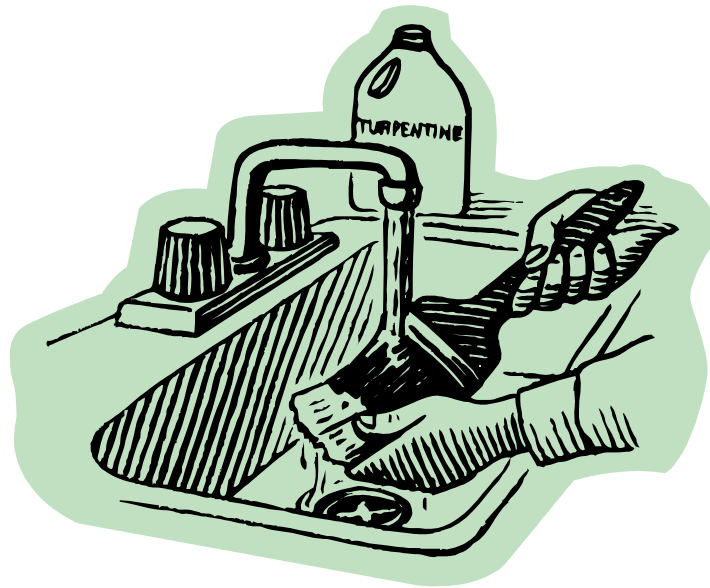

- Follow proper handling of animals and plants in the classroom.

- Keep hands away from eyes when using iron filings.

- Keep the workplace neat. Clean up when done.

- Practice all of the safety procedures associated with the activities or investigations conducted.

- Tell the teacher about accidents or spills right away.

- Use caution when working with heat sources and heated objects.

- Wash hands after each activity.
